[FileZilla](#)

Filezilla Tutorials:

1-<https://youtu.be/aRoI4qRWSNg>

2-<https://youtu.be/A-gr0LIWT64>

[Plagium](#) - Great free alternative to Copyscape. There's a limit to their free daily searches but more than enough for the average user.

Website Monitoring & Optimization

[Pingdom.com](#) - Pingdom offers cost-effective, reliable up-time and performance monitoring for your website. Lets you identify what's fast, slow, too big, etc about a web page, how to make it faster, and more...

[Uptime Robot](#) – 100% FREE service that monitors your websites 24/7 and alerts you if any is down.

[URL Opener](#) - URL Opener lets you enter (type or paste) any number of URLs into a form on their website. It then simultaneously bulk opens each URL in a separate browser tab.

Images/Graphics

[Firefox Screen Capture](#) - for capturing entire Web pages, crop etc.

[GIMP](#) - Gimp is the ultimate free graphics editor for online marketers. Edit images, create banners, logos, graphics and more.

[Pixlr](#) – Free online alternative to Photoshop (for Windows & MAC) with tons of features including an easy way to brand PLR eBook covers.

[Paint.net](#) - intuitive user interface with support for layers, unlimited undo, special effects, a variety of useful and powerful tools plus and an active and growing online community should you need help.

[Canva](#) - Free online tool for designing website graphics, ads, eCards, social graphics and a whole lot more...

[OnlineLogoMaker](#) – Creates logos, banners, images for blog posts, and more...

[Pixabay](#) - Free Stock Photos

[Unsplash](#) – Free images and pictures

[TinyPNG](#) - Compression website for optimizing your images (JPEG & PNG) 100% FREE, with the right balance in quality and file size.

[CompressImage](#) – Useful image resizer/converter

[Free Icons](#) – One of the largest collection of free (and paid) icons in the world.

[Icon Converter](#) – Free online icon maker and favicon generator.

[Animated Favicons](#) – Cool, free way to brand your Web pages with a custom icon in the browser address bar.

[Windows Drive Icon Changer](#) – Creates custom icons for your hard drive, removable and network drives.

[Image Vectorizer](#) - Converts raster images: PNGs, BMPs and JPEGs, to scalable vector graphics (SVG)

[Cover Art](#) – mascot, mini sites, banners, responsive design.

[Tinypic](#) - Allows you to upload, link and share images (and videos) on MySpace®, eBay®, Orkut Scrapbooks, blogs, and message boards.

[20DollarBanners](#) – professional banner design starting at US \$20.

[Vid Pix PRO](#) – A Wordpress plugin that lets you place interactive buy buttons, opt-in forms and videos on top of regular images. It actually works and is dead easy to use.

Payment Processing

[PayPal](#) – If you do not yet have a PayPal account, sign up now or risk losing a whole lot of sales. That's because people know and trust PayPal. Other than their small transaction fee it's also 100% free.

[PayHip](#) – PayHip allows you to sell digital products with no need for a domain name or a website. They'll host your files, handle all payments (via PayPal and Stripe) and deliver customer-downloads automatically.

Cloud Storage & Fulfillment

Amazon S3 – A File Hosting Service, Amazon S3 allows you to host large files and deliver them to your customers super-fast at very affordable rates.

[Learn More...](#)

[DropBox](#) - Syncs across all of your devices from anywhere, and with direct order links that allow your customers to download their orders or save them to their DropBox account.

Physical Product Fulfillment

[Kunaki](#) - On demand production and shipping of CDs and DVDs. Integrates with a growing number of shopping carts.

[Disk.com](#) - Handles production and shipping of CDs, DVDs, USB Drives, Preloaded MP3 players and more...

Support Desk

[Osticket.com](#) – Seamlessly routes all email, web-form and phone inquiries into a support ticket and alerts you (and your staff if applicable) via email and via

the ticketing system itself, of all new messages, without fail. Comes with a free version.

[FreshDesk.com](https://freshdesk.com) – Intuitive, feature-rich and affordable, freshdesk.com simplifies the work load for both you and your agents with each and every email, feedback, chat, or call that comes in being converted into a support ticket. Free starter account available.

[ZenDesk.com](https://zendesk.com) – Zendesk connects you with customers on any channel: phone, chat, email, social media, and more...

Writing/Productivity/Management

[Openoffice](https://openoffice.org) - Free alternative to Microsoft Office: includes alternatives to Word, Excel, Powerpoint and more.

[Evernote](https://evernote.com) - Evernote is a cross-platform app designed for note taking and organizing ideas, etc. There's the paid version but unless you do note-sharing, the free plan should work OK.

[WorkFlowy](https://workflowy.com) – Similar to Evernote WorkFlowy is a great little app that lets you manage notes, organize ideas and pretty much anything. Plus it's 100% free.

[ColdTurkey](https://coldturkey.com) - Distraction-free text editor that literally FORCES you to write. You tell it how many words you want to write. It then takes over your computer and won't let you do anything else until you've finished writing.

[Grammarly.com](https://grammarly.com) - Grammarly makes sure that everything you type is clear and mistake-free. Also comes with a plagiarism tool for good measure.

[SayzMe](https://sayzme.com) - SayzMe is a text-to-speech reader designed to open and read any document that contains text, or read text copied to your clipboard. I use it to read email, edit articles and more. Could no longer do without it!

[Text2Speech.org](https://text2speech.org) – A web-based alternative to SayzMe, you can listen to the converted text online or download it in the form of an mp3 file.

[Boomerang](#) – Boomerang lets you write an email and schedule it to be sent at a later date. Comes with other cool features too, including follow-up reminders, Boomerang for Gmail and more...

[FreeMind](#) - High productivity Mind-mapping software for PC and Mac. (100% FREE)

[UnRoll](#) – A free service that lets you bulk-unsubscribe from email lists you no longer want to subscribe to, and have the ones you want to keep delivered to a single email address once daily or as often as you wish.

[Google Calendar](#) - Accessible from anywhere, Google Calendar lets you plan and manage meetings, promotions and a whole lot more. Also comes with the Google Calendar app for Android and iPhone, all 100% free.

[Sugar CRM](#) – Should you need a customer relationship management service, Sugar CRM is a great starting point in terms of their user-friendly interface, features that matter and their overall customer-management expertise.

[MantisBT](#) - Invaluable in terms of project management, collaborating with team members, employees, outsource workers & clients. Once you start using it, you'll probably never go elsewhere. It's also 100 per cent free.

[eFAX](#) - Send and receive faxes from anywhere using your computer, tablet or smartphone.

[Free Conference Calling](#) – Incredibly reliable service with up to 1000 attendees at no cost to you.

Free Online Document Converters

Word To PDF

[Conv2PDF](#) – Converts up to 10 MB word files to PDF with password-protect option, clickable links and no limit to the number of files you can convert.

[Online2PDF](#) – Edits; unlocks; merges; batch converts; exports (to Word, Excel, Powerpoint, JPG) and more...

[Docupub.com](#) - Converts Word, Excel, PowerPoint..(doc, xls, ppt.), image formats (TIFF, JPG, HEIC and more) to PDF, PDF/A or Image.

PDF To Word

[Online2PDF](#) – Converts Word files to PDF; edits, unlocks, merges; batch converts; exports PDF files (to Word, Excel, Powerpoint, JPG) and more.

[FreePDFconvert](#) – Another cool PDF-to-Word converter but with a delay between conversions, using the free version. The paid version allows unlimited conversions with no delay.

PDF To HTML

[PDF Online](#) – Converts PDF files to HTML.

Audio Recording/Editing

[Audacity](#) - Free, open source, multi-track audio editor and recorder for Windows, Mac OS X, GNU/Linux and other operating systems.

[Free Audio Editor](#) - Easy-to-use audio and music recorder/editor for Windows and MAC. I often use it to record webinars. Really cool.

Video Creation/Editing

[Camtasia](#) - Great way to learn the ins and outs of video creation: presentation-style videos; talking-head videos with NO screen sharing (just you and your audience, and everything in between).

[Camtasia 9 Video Tutorials](#) - 42 over-the-shoulder training videos with a host of GURU-LEVEL features built in.

[Screencast-O-Matic](#) -100% free, Screencast-O-Matic lets you create video tutorials in three of the most popular formats: MP4, AVI, and Flash Video.

[VideoPad](#) - Video Editing Software for Windows with lots of great features.

[Click here](#) for more great video creation tools.

Online Security

[Cloudflare](#) - For increased speed to your website, free SSL and more. Offers a paid service but their free account is all you may ever need.

Password Managers

[DashLane](#) - The surest way to protect your identity and online accounts is to use unique passwords everywhere. That is what DashLane does, and it 100% FREE.

[LastPass](#) – Like DashLane, LastPass remembers your passwords (a different password for each site), so you don't have to. All you have to do is remember your LastPass password, they'll take care of everything else. (Comes with a free plan)

[RoboForm](#) - securely stores passwords on your computer and automatically logs you into your online accounts. (Free download available)

Wordpress Security

[WPToolKit](#) - Locks down WordPress with 3 of the best known security suites for Wordpress: (1) Wordfence (2) WP Defender and (3) iThemes Security PRO. Use them to start a Wordpress security business, even.

Windows® Maintenance/Security/Backup

[CCleaner](#) - Removes unused files from your PC allowing Windows to run faster while freeing up space.

[Clipboard Spy Defender](#) – Adding a second layer of protection to your PC is a remarkable way to stop trojans/spyware/bots from recording clipboard activities on your PC and sending the information they collect, to hackers who

can then use it to create endless problems for you. Here's where Clipboard Spy Defender can help.

[SecondCopy](#)- Manual or automatic backs-up of everything on your PC. Backups to external drives, and online, via FTP. Free trial copy available.

Miscellaneous

[Free Web based Teleprompter](#) - Works just like an off-line teleprompter with no additional software required.

[PHP Click Counter](#) – For counting how many times a URL gets clicked or a file gets downloaded from your website. May also be used to hide your affiliate links.

[Random image and page rotator](#) – Used to randomly rotate ads, text snippets, images, web pages, links or anything else you wish to rotate.

[Dial My Calls](#)- Great service for sending and tracking voice broadcasts and text alerts (USA mainly.) For countries outside of the USA, go to Google.com and type in (Send mobile text messages (or send mobile voice messages) "COUNTRY NAME")

[Memo To Me](#) – Cool, free reminder service that lets you set up email alerts for anything you want to be reminded of, and as often as you need it to.

[What Is My IP?](#) – Instant, on-screen display, of your IP address.

Recommended

Done for You Products

[Done For You Sales Funnels](#) - Complete with done-for-you products (front end offer and video up-sells) sales pages, graphics and everything else you need to start cashing in.

[Done For You Websites](#) – Websites ready to take orders in a number of niches: Software Store; Flash Sales Websites; Health & Wellness; Instant Video Sites, and more...
