NO LONGER DO YOU NEED TO
PRESSURE ANYONE INTO BUYING FROM
YOUR WEB SITE, THERE'S AN EASIER, MORE
GUARANTEED WAY TO MAKE A SALE...EVEN
IF YOUR SALES COPY SUCKS!

Thank you for grabbing a copy of Free Giveaway Millions V1.

If you've already bought or downloaded any of our "Instant Dollars" family of products, then you already know what it means to earn a living or make money online, often with no need to sell anything.

What you're about to read in this report is no different.

It's about getting paid to give away free stuff online.

Yes, unlike trying to get people to pull out their credit card at your website or beg them to buy your product or service, you'll be leveraging what's known as the "Value-exchange" concept to give away a whole bunch of stuff, and get paid each time you did.

It's true, and the more giveaways you can come up with the more money you'll make.

And guess what: We'll provide you with 100 plus hot giveaways plus [your own free giveaway website](#) to start you out with a BANG...and you can be up and running in 48 hours or less.

First, though, you probably got into Internet Marketing 'cause the income potential is great.

You could sit at home, flood your website with traffic, sell HUNDREDS of products or services and generate a five or six figure income with ease.

Sadly, selling products or services using traditional methods is becoming harder and harder to do nowadays.

It's true. I see good folks just like YOU work REALLY, REALLY hard to build an online business.

They create products; tweak sales pages; change offers; throw-in the kitchen sink, even, in hopes of finally seeing a decent pay day.

But guess what: convincing visitors to grab their credit

card, raise their hand and hit the buy button isn't as easy as it once was.

Give them away instead.

Besides The Giveaways That You Provide, What Else Can I Giveaway With This Free Giveaway Concept and How Do You Actually Make Money?

First, you may giveaway virtually ANYTHING sold online in digital form: software, video, music, photos, mobile apps, games, access to e-courses, membership sites and a host of other products and services.

And just in case you're wondering, they'll be used as incentives (as a "bribe" if you like) to entice potential customers into doing something at a "Value Exchange" or "Incentivized" website, such as taking a trial offer, an online survey, etc.

In short, you'll be working with "Value Exchange" advertising giants such as Comcast, IKEA, etc. who'll use your free giveaways to, again, get potential

customers to take some kind of action that they hope will eventually lead to a sale.

You won't be working with them directly but with a "Value Exchange" website (or multiple websites) that'll pay you once a transaction (buying or trying out a product or service, or taking an online survey on behalf of the "Value Exchange advertiser), is complete.

That's how you'll get paid.

So How Much Can You Realistically Earn

How much you earn will be ENTIRELY UP TO YOU and you may learn more at:

<http://www.FreeGiveawayMillions.com>

Importantly, the more giveaways you can come up with the more money you'll make.

But hey, billions of people are now connected to the internet with hundreds of millions searching for all kinds of stuff: how to play the guitar, the piano, produce professional videos, decorate their homes, raise their pets, grow & maintain their garden, sleep better, relieve

common cold, lose weight, muscle building, dating, how to cook delicious meals, knitting, painting, your own e-book, software, coaching program, apps etc.

It's a hungry market looking to fill a need.

And guess what: you can fill that need by giving it to them for free for a change.

How Do You Actually Get Paid and How Often?

Depending on the incentivized website(s) you use, there's a range of options, including:

PayPal, Payoneer Debit Card; Payza; Paxum; Check (USA & INTL); Bank Wire Transfer (USA & INTL)

As to how often you get paid, it normally takes between 15 and 30 days, with weekly payouts for higher giveaway volumes on some sites.

And How Quickly Can You Be Up and Running?

In 48 hours or less.

And hey, once you get this down to a science (and you will), you'll see how easy it can be to turn this into a HUGE nest egg over time.

Setting Up Your Own Free Giveaway Website

Not that you have to 'cause you'll have the option to start out without a website.

But why limit yourself to giving away a handful of products (at your main website perhaps with all of the distractions from other activities, etc.), when you can run a stand-alone giveaway center all by itself!

It's an easy way to showcase all of your offers in one place.

People looking for new offers will also know precisely where to look. They'll tell their friends about it too.

[Take a look](#) again, at what your own site will look like.

But that's just the start 'cause we'll show you where to find top quality products to give away in a wide variety of niches: from Indoor Gardening to Fitness & Health, to Internet Marketing, Video; Software; Make Money Online, and a whole lot more.

Inside of one of the "Value Exchange" member management dashboards (of which you'll become a member) are HUNDREDS of third-party products that you may also add to your member portfolio and promote at will, many of which you may even download and use.

So Who Was This Opportunity Designed For?

1: FOR STRUGGLING ONLINE MARKETERS

Whether you're looking to supplement your online income or make up for your loss, this is a guaranteed way to do a lot less work than you probably currently do while injecting a steady on-going income stream into your online portfolio.

2: FOR ANYONE LOOKING TO "NICKEL & DIME" IT.
Budget-minded folks, self-proclaimed cheapskates, or new Internet start-ups with a limited budget that need a leg-up.

One major benefit is the low start-up/no start-up costs including access to an entire "Value Exchange" Management System where you can offer as many giveaways as you want to, 100 per cent FREE.

3: FOR PART-TIME WORKERS LOOKING TO SUPPLEMENT THEIR INCOME

If all you're looking for is a part time income (perhaps due to other commitments or lack of time), you're welcome to join the program. After seeing your first few paychecks, though, you may decide to go full time.

4: FOR HOME WORKERS IRRESPECTIVE OF WHERE YOU LIVE

Small town, big town, it's a cool way to balance life doing something from home that's truly and TOTALLY yours.

In fact, it's a great opportunity to work in one of the hottest make-money-from-home industries for a change.

5: FOR COMPLETE NEWBIE LOOKING TO MAKE THEIR FIRST DOLLAR ONLINE

Yes, as long as you have access to an Internet-connected PC or MAC you WILL make money with this.

And that's whether or not you have a website or know how to setup one. We'll also show you how to attract TONS of traffic including Instagram traffic in droves, non stop.

Rest assured, if you're just starting out online this is perfect for you.

6: FOR SINGLE MOMS/DADS IN NEED OF THAT EXTRA INCOME; RETIREES LOOKING FOR SOME EXTRA CASH ON THE SIDE; STRUGGLING COLLEGE STUDENTS OR ANYONE LOOKING TO STAY AFLOAT.

7: FOR ANYONE FEDUP WITH BIG PROMISES AND NO RESULTS

Chances are you've tried many different income-generating methods that simply haven't worked for you.

I have no idea why they haven't but this is a tried and proven method, with lots of companies with deep pockets lining up to pay you over and over again.

In fact, if you are SERIOUS about changing your financial picture and have the will to make it big this year, the sky's the limit, here.

Once you get to \$100 per day, everything changes!

Finally...

Whether you're looking to earn your first dollar online or

have had little to no success doing what you do up to this point...

Chances are, you may have tried every way imaginable and don't quite know what or who to believe anymore, thinking about waving the white flag, even.

Or you're probably simply looking to add a new income stream to what you already do.

Either way, you'll find "Free Giveaway Millions" V1, a refreshing change.

It's one of those business models you can count on to jump start your online earnings, in fact, or turn things around for you in a hurry.

It's an EVERGREEN business model too, meaning that a SINGLE giveaway alone could make you TONS of money over and over again for years.

So if the idea of making a few extra hundred bucks giving away stuff or running an entire giveaway business, excites you, here's what you do next.
