Thank you for downloading Instant Dollars V1.

Chances are you already make good money online and looking for a way to supplement that income.

Or perhaps, you're one of the many thousands of struggling online marketers making little or no money and believe there has to be a better way.

Either way, this report is about a devilishly clever, wildly profitable, and fun way to earn full-time pay for part-time work (\$50,000 - \$60,000 a year or more)

Build a high-profit business, even, and earn as much as you wish short and long term.

## **First, what the program is all about...**

### **What is it?**

It's about giving away FREE Gifts (products, services or cash) "Working" with Incentivized Free Giveaway websites -- websites that give away products, services, and cash for completing trial offers, and referring others to do the same.

If you've ever seen a banner Ad online or visited a website that promised an iPhone, free laptop, free play station FREE Wii or cash for taking free trial offers or simply completing a form with your name, email address and home address, then you've undoubtedly stumbled upon an Incentivized Free Giveaway website.

What action is required varies from one website to another, but just in case you think they aren't real, they are. You really can get these high ticket items and/or cash, for free.

For consumers, it can be a real blessing (an easy way to try out different product lines before making a decision to buy, or not), or a source of income for a change.

They just need to do three simple things to get their free product or cash and most of the IFWs work pretty much the same way:

1. Register at their website for free!
2. Complete a certain number of trial offers!
3. Refer one or more people to complete the first two steps!

For the big corporations (Fortune 500 companies such as DISNEY, GEICO, IKEA and hundreds more) it's a relatively new form of advertising.

Instead of spending millions of dollars in traditional advertising that isn't as effective as it once was--or no longer works, they set up trial offers on these incentivized websites designed to bring advertisers and consumers together in one giant marketplace, aimed at increasing their customer base over time.

It benefits both advertiser and consumer and you can get some of those BIG advertising dollars, paid directly to you.

Trial offers include, regular things that people use in their everyday lives such as skin care products--well-known consumer brands. In most cases all that's required is paying a small, shipping and handling fee.

**Other offers include:**

Health Products; Auto Loans Auto Warranties; Online Dating; Education; Entertainment; Credit Report; Credit Repair; Credit Cards Debt Consolidation; Debt Settlement; Payday Loans, Mortgage Refinance; Weight-Loss; Vitamin Supplements; Identity Theft services; Sweepstakes; Home Security; Home Warranty; Auto Insurance; Home and Life Insurance; Health Insurance the list goes on...

**Why Taking Trial Offers Work**

Trial offers work as the chance to get a product or service (or cash) in return for, often, just a few minutes of their time, is something that most people would jump at.

Yes, say you wanted an iPhone and the retail price was \$700 but an incentivized website offered you that iPhone for free as an incentive to get 2 or 3 other people to do something dead easy at their site, won't you at least give it a shot?

That is why they're called incentivized websites, with many offering CASH as an alternative to free, physical products.

Those are the IFWs you'll be "working" with!

And don't you worry this isn't about you completing dozens and dozens of offers. It's about completing just the required number so you can be positioned to refer others and be in a cash-generating position.

In fact, once your account is activated it literally becomes a Profit Center that you can cash in on over and over again...for life.

The best part is, you won't be selling anything!

On the contrary, you'll be working alongside these major fortune 500 companies (and a few smaller ones including individual entrepreneurs) to introduce people to their products and services on a trial basis.

Products that they can try out for free and enjoy all of the benefits before deciding whether or not to buy.

If they decide to purchase that product or service then they'll be billed, usually month by month if it's a 'repeat' product or service. They may cancel at any time.

Free samples make sense, though, as competition for consumer products is now higher than ever.

For nearly every product available on the market, in fact, there are numerous brand names all competing for the same market, making this a proven system that you can jump on as early as today and start making a lot of money in a hurry! Even make it a full time business should you want to.

Q: And how do these Incentivized Freebie Web sites make their money?

A: From their advertisers!

Each time a trial offer is taken, the IFW is paid a set fee (a HUGE sum.) They then take a portion of that money and set it aside to pay for the free product (the incentive) that they give away for taking that trial offer, and to pay their members or affiliates (YOU) for sending people to their websites to take those offers in the first place.

## About The Company You'll Be Working With

First of all I've never been crazy about IFWs (*Incentivized Freebie websites*) as many would start out with noble intentions but tend to never ever live up to their pre launch hype or anywhere close.

But a few things really jumped out at me when I first reviewed the company we're about to introduce you to:

1. **It provides its advertisers with the best quality leads by eliminating fraud.**
2. Offers some of the best deals possible, with great offer crediting.
3. **Provides a HUGE selection of offers as well as the most popular ones for consumers to try.**
4. Provides quick response times to inquiries.
5. **There's no false promises, you see results FAST** and is easy to follow from the word "GO"!
6. **Pays on time**, every time!
7. **Free to join** and so easy to do, even complete newbies are seeing life-changing results like NOTHING I've seen in years!

The company is called: [ZIPNadaZilch.com](http://ZIPNadaZilch.com)

Launched on July 14th, 2007 ZipNadaZilch has emerged as a leader in this relatively new industry with impeccable customer service among other things.

In their first 4 and 1/2 years in business they shipped out over \$3,500,000 in free gifts and promotional prizes, plus millions of dollars in commissions and they pay within a few hours of you requesting payment for completed referrals.

To become a full member you'll be required to take a few trial offers yourself. But once completed, you'll be in a cash-generating position for life, meaning that:

1. You won't have to complete a SINGLE trial offer again...EVER.
2. You can refer HUNDREDS, even THOUSANDS of people to take trial offers and get paid over and over again.

NOTE: It takes just under an hour to complete the required number of trial offers. The same goes for your referrals and they too, will then be positioned to refer others and get their own free products or cash.

Importantly, you'll be making \$80-\$110 per sign up and in part 2 of the report we'll walk you through the sign up process.

We'll also introduce you to a free marketing system that guarantees at least one referral daily. That's \$80-\$110 daily.

Plus other traffic sources, including a "Limitless Traffic" source designed specifically for the "Make Money Online" niche.

**More on both in part 3.**

**Finally,**

## **Taking your own trial offers**

This is the second phase in the setting up of your own Profit Center on [ZipNadaZilch](#).

It's a process that sets you up for life so bear with me I just want to make a few key points. They're all important so please read carefully.

### **1: You only have to activate your account one time**

This is done by taking a number of FREE trial offers on THREE separate but related Web sites. (No more than 9 trial offers)

SIDE NOTE: Taking trial offers is boring and can take up to 1 hour to complete. Fortunately, you'll have to do it just once.

Even if it does take longer, however, it'll be well worth it.

This is foundational stuff, though, so be patient. When I started out I was in the middle of a NEW product launch so I couldn't do it all at once. It all happened over a three-day period.

The beauty here is this: All you have to do is, get started, with no time limit on moving from one phase to the next and it doesn't have to be done in any particular order after signing up at the first website. (More on this in Part 2)

### **2: Keeping track of your trial offers**

Since you'll be taking up to 9 trial offers (a pre requisite to joining the network) tracking is important.

They hope that you'll keep those offers and become a paying customer for the big corporations who advertise with them.

But except you want to pay for a particular product or service, you do not have to keep any (not even one) of the trial offers you take. Simply cancel within the trial period and pay nothing.

If you're in this to simply make money, that's just the way it works. You will be encouraged to keep those offers and by all means, keep something if you need it. But again, you do not have to.

And just in case you're concerned about the ethics, don't.

Here's why: Both the advertising networks and the companies that advertise on their networks understand that the majority of people who sign up for their product or service do, just to get something for free and will cancel within the trial period.

The companies who choose to advertise on incentivized freebie websites do so 'cause they want to bribe you for your business in the first place. That is why they chose this form of advertising.

They'll only do so if it's strategically advantageous for their long term growth. And it is.

1. Through brand awareness--maximum exposure for their products or services.
2. Lead-generation: building a list of potential customers has become a near predictable way to increase their profit over time.

They'll follow-up via phone and email with new offers from time to time with the knowledge that many people will buy.

For them it's a numbers game. They know that some of us will feel guilty and reciprocate.

For those who don't it's a normal business expense as they're used to paying millions of dollars to obtain leads and customers.

So hey, don't let some unjustified "guilt" keep you from unleashing the full potential of "*Instant Dollars*".

Instead, start sending some much needed CASH to your PayPal or bank account...starting TODAY.

## SUMMARY

Just so you aren't confused in any way, the idea here (If you remember) is to qualify for full member status with ZNZ (getting the green light to refer others and getting into a cash-generating position for life) not to continuously take free trial offers yourself or purchase products.

It means, getting as many people as you can to take free trial offers, as quickly as you can, and we'll help you get there using some of the very tools we use.

And just to remind you, there's no limit to your earnings here, and so easy, even complete newbies are seeing life-changing results.

And quickly!

**Let's now head over to part 2.**
